SUMMARY

Dynamic Full Stack Web Developer proficient in the MERN stack and Next.js, with expertise in building efficient, scalable applications and optimizing workflows. Proven track record of reducing redundant processes and enhancing development speed using reusable components. Experienced in delivering impactful SEO-optimized features and leveraging AI automation using N8N to streamline business operations, saving significant time and costs. Committed to continuous learning and delivering exceptional software solutions.

TECHNICAL SKILLS

React, Next.js, N8N	Node.js, Express.js, MongoDB	Adaptability, Teamwork
Responsive Web Design	JavaScript, Redux	Problem-Solving

PROFESSIONAL EXPERIENCE

Rexcor Software Pvt. Ltd. Jan 2025 - Present

Frontend Developer

- Developed responsive and interactive LIMS and CRM frontends using React.js.
- Collaborated in designing and implementing seamless API integrations and optimized UI/UX workflows.

Creditnama NVM Finserve Pvt. Ltd. May 2024 - Jan 2025

Software Engineer

- Developed frontend components using Next.js while optimizing for SEO improvements.
- Designed and implemented a functionality that reduced one week’s workload to just one hour, significantly boosting team efficiency.
- Contributed to the design of scalable web applications adhering to industry standards.

Abhastra Technology pvt. ltd Jan 2023 - May 2024

Junior Software Developer

- Developed and maintained web applications using MERN Stack.
- Collaborated with team members to design and implement new features.
- Assisted in debugging and resolving issues in the codebase.

PROJECTS

Usehoks Sep 2024

- **Technologies:** React, JavaScript, Responsive Web Design
- **Description:** Created a JavaScript utility library, enhancing coding efficiency with custom Hooks and functions.
 - Transformed redundant functions into reusable hooks, significantly accelerating development speed.
 - Developed with React, ensuring compatibility and integration with modern React applications.
 - Designed with a focus on responsive web design, improving usability across devices.

Coffetto Jan 2024

- **Technologies:** React, Redux, Node.js, MongoDB
- **Description:** Developed a comprehensive coffee lover's website using React and Redux for state management.
 - Implemented efficient server-side APIs utilizing Express.js and Node.js.
 - Used MongoDB for database management, ensuring efficient data storage and retrieval.
 - Undertook complete design and development responsibilities, integrating frontend and backend components.
